*The Home of Good
Nursery Stock*

We guarantee our stock to grow

**LARGEST ASSORTMENT
Of Strictly First-class Stock In Wisconsin**

TO OUR SALESMEN.

The prices herein quoted are for first-class stock, of grades specified, well packed and delivered in good condition, charges paid. No orders under \$2.00 can be accepted.

Do not overrate stock or make misrepresentations to obtain orders.

Always leave duplicate of order with customer and see that same corresponds exactly with original.

Impress upon customer the necessity of promptly calling for his trees on day of delivery, that he may receive them while in good condition, as well as save extra expense of delivery.

Sell six at dozen rates, fifty at hundred rates, unless otherwise specified.

NOTICE

CONFINE SALES TO VARIETIES NAMED HEREIN. THE LIST PERMITS OF A GOOD SELECTION OF BEST KINDS SUITABLE FOR ALL TERRITORY. SELL NO OTHER GRADES THAN HEREIN LISTED.

We intend to make the business a permanent one and this can only be done by fair and honest dealing with all our customers.

Remember that it pays to do a little more than we promise rather than to promise more than we can fulfill.

We are careful to have all stock correctly labeled and hold ourselves prepared to replace, on proper proof, all that may prove untrue, or to refund the amount paid therefor, but it is understood that in case of error on our part, we shall at no time be held responsible for a greater amount than the original price of said stock.

Do not mark prices in Plate Book.

SHADE AND ORNAMENTAL TREES

To avoid any misunderstanding regarding sizes and grades of trees we make the following explanation. The 6-8 ft. grade takes in trees which are 6 ft. and over and up to 8 ft., but does not include the 8 ft. trees. For illustration: In case the planter desires an 8 ft. tree it will be necessary to purchase the 8-10 ft. Size. This also applies to trees sold by caliper. The size of trees sold by diameter is measured six inches above the roots.

ELM TREES

Elms are the best trees for general planting. For street and park purposes, they have no equal. We are propagating Elms by grafting, which are far superior to the Common American Elm. You will find a description of the Vase and Moline Pyramidal Elms in our catalog.

ROSES

Our Roses are strong two year plants, grown out of doors, well rooted, hardy, first-class, and are more valuable than plants sent out by mail or those offered at cheap prices, which are mere tender shoots, started in a greenhouse and without strength enough to stand the shock of transplanting. Our Roses usually bloom the first season.

The letter after each name indicates the color according to the following key: (B) for Blush; (C) for Crimson; (P) for Pink; (R) for Red; (S) for Silver; (W) for White; (Y) for Yellow.

BULBS FOR FALL PLANTING

Varieties and prices only upon application

Best varieties to plant will be found in this Price List. In each instance the price named is in line with the quality of stock offered. Inferior stock may be bought for less, but experienced planters will not buy it, for poor stock is costly at any price. Our guarantee is contained on the back cover of Price List and in the heading of every Order Blank.

NUMBER OF TREES OR PLANTS ON AN ACRE

2 feet each way -----	10,890
3 feet each way -----	4,840
4 feet each way -----	2,723
5 feet each way -----	1,742
6 feet each way -----	1,210
8 feet each way -----	680
10 feet each way -----	430
